An exciting day where you can take part to different **games on the beach and in the sea** or lake waters. We can organize many kinds of activities like **volleyball, soccer, swimming, seashore orienteering, archery**, etc., according to **your requests** and the available spaces. A healthy competition, where no one is left behind, the **atmosphere is cheerful and fun**, and the main purpose is to create **teamwork**, enhance **communication** and improve the **group identity**. A casual experience, to relax, put oneself to the test and have fun all together.

The best location for this activity is a **resort or beach club** that also has all the necessary facilities and spaces to welcome the teams for whole duration of the event. It can last **half a day or a whole day**, depending on your schedule.

Strengthen your team with a **refreshing and engaging experience** on the beach. Games, sun and water will build up the team and create lasting memories. Get ready for a day filled with fun, laughter and new bonds, with this fantastic Team Building.

Carton boat

The target of this Team Building is to design and build a functional boat, where one or more team members can take place and float. Each team receives the necessary material to build their own ship: cardboard, tape etc.

The team **works together** to think and **design the boat**, make a construction plan and assemble it all. **Teamwork** is essential, so as efficient communication and sharing ideas. Creativity stimulates the search for original solutions to create an object that is able to float and be stable.

Not only that: once the boats are ready, they are tested in the water, where they have to navigate with a person or two **onboard**, along a **given track**, in a fun and friendly speed challenge with the other teams.

The team members must use all their abilities and skills to **build a functional boat** and face the challenge of water. Efficient communication and sharing responsibilities are key factors to succeed!

This activity surely inspires **creativity** and **engineering skills**: you need original ideas to create a boat made of just cardboard and tape, that can float and stay straight. It is possible! Use creativity, problem solving skills,

ability to adapt to the situation and **learn from mistakes**. Especially in case of problems or failures during the race, think fast and find a solution. Have fun and **reach the target!** This activity can be organized at a swimming pool, lake or sea and can be personalized and adapted to meet your needs.

Get ready to have a lot of fun, feel the competition and **live the adventure!**

Sailing

The “Sailing” Team Building is a unique experience that gives you the opportunity to test teamwork at its best, navigate the waters and face challenges in a dynamic and stimulating environment. You will learn the basics of sailing, develop fundamental communication skills, improve collaboration and strengthen leadership.

In a **short introduction on sailing**, you will learn facts about sailing boats, nautical terminology, wind principles and navigation techniques. You will receive clear instructions on **how to steer the boat, manage the sails and work as a crew**. After learning the basics, every crew can put into practice what they have just learned. Under the guidance of professional instructors, you will navigate the waters, facing challenges like boat control, change of direction and keeping the balance. Teamwork is truly essential in this activity: **the crews need to communicate and collaborate** to make efficient decisions and reach the common objectives. Synchronizing all actions and coordinating operations is very important for navigation success. Besides the practical navigation aspects, the “Sailing” Team Building also promotes values like mutual respect, trust and responsibility. **Crew members learn to listen to one another**, to respect everyone’s skills and to trust one another in difficult and key moments. Moreover, the sailing activity offers benefits also for the personal and professional development of every participant. It helps develop leadership, decision making and problem-solving competences in a dynamic and unpredictable environment. It inspires communication abilities, stress management and adaptability to ever-changing situations.

With this Team Building you can **learn, grow and have fun** all together, building lasting memories and improving your commitment and performance in teamwork.
